

Name _____

Date _____

Using the Checkbook Register

1. Fill out a deposit slip for the amount of your initial deposit below, and enter the amount in your checkbook register.
2. Write a check for each of the expenses listed below. Remember to enter the check number in the upper right corner, and in the register. The first check will be #101.
3. Enter the amount in the checkbook register and do the subtraction. For each deposit, fill out a deposit slip and add that amount to the balance in the register.
4. When you've entered all the transactions, swap registers with a friend and check each other's math. Sign your friend's register to confirm that the math is correct.

Check Number	Transaction	Amount	Balance At End
